

# Apply — Applicant Guide

Tenx Documentation

# Apply — User Guide

Apply is the application and selection platform — the entry point to the Tenx ecosystem. It manages the full applicant journey from intake through assessment, review, and selection. This guide covers everything **applicants** and **staff** do on the platform.

**Download the full user guide (PDF)** { .md-button .md-button--primary  
download="Apply-User-Guide.pdf" }

## 1. Getting Started

### 1.1 Overview of Apply

Apply is an applicant intake, assessment, and selection platform. It enables organisations to manage application cycles end-to-end — from collecting applicant information and running assessments, through staff review, to final selection decisions.

The platform supports any program, course, fellowship, or hiring process where structured applications, assessments, and reviewer workflows are required. It is delivered as a subscription product and configured per organisation.

### 1.2 User Roles

Apply supports three primary user roles, each with a different experience:

#### **Applicant**

- Create and manage their account
- Submit applications to open programs and cohorts
- Take required assessments within timed windows
- Track the status of their application

#### **Reviewer**

- Review assigned applications
- Score applicant responses against rubrics
- Leave evaluation notes for selection committees

#### **Program Coordinator**

- Configure cohorts, forms, assessments, and review rubrics
- Manage applicant pools and assign reviewers
- Communicate with applicants in bulk
- Make selection decisions and export data

### 1.3 System Requirements

To use Apply effectively:

- A modern web browser — Chrome, Firefox, Edge, or Safari
- A stable internet connection
- A desktop or laptop (especially for staff workflows)

## 1.4 Accessing the Platform

Access is provided once a program is published or a staff role has been provisioned.

- **Applicants** typically receive a public link from the program announcement
- **Staff** receive credentials and a workspace invitation by email

### Access steps:

1. Open your web browser
2. Enter the platform link provided to you
3. Proceed to the login page

*If you do not yet have access, contact your platform administrator or [support@10academy.org](mailto:support@10academy.org).*

## 2. Authentication

### 2.1 Login

The login page lets users access Apply using either email/password credentials or Google authentication.

### Steps to Log In:

1. Open your web browser
2. Navigate to your Apply platform link
3. On the login page, enter your registered email address
4. Enter your password
5. Click the **Login** button
6. Alternatively, click **Continue with Google** to sign in with a Google account
7. On success, you'll be redirected to your dashboard or workspace

## 2.2 Password Management

If you've forgotten your password, follow the steps below.

The screenshot shows a web interface for password management. On the left is a large grid of light blue squares. In the center, there is a red square with the number '10' and the word 'academy' next to it. To the right, there is a form with the following elements:

- A language selector at the top right with a dropdown arrow and the text 'Change interface language' in a speech bubble.
- A label 'Write your email address' above an input field.
- A speech bubble 'Enter a valid email address' pointing to the input field.
- An input field with the placeholder text 'Email' and a lock icon on the right.
- A red button with a lock icon and the text 'Done'.
- A speech bubble 'Submit email and proceed' pointing to the 'Done' button.
- A link 'Already have an account? Log in' below the button.
- A speech bubble 'Redirect existing users to login' pointing to the 'Log in' link.

### Steps to Reset Password:

1. Navigate to the Login page
2. Click **Forgot password** (below the Login button)
3. Enter your registered email address
4. Click **Done / Send Reset Link**
5. Check your email inbox for the reset link
6. Click the link in the email
7. Enter and confirm a new password
8. Click **Submit / Save**

**Tip** — If the reset email doesn't arrive within a few minutes, check your spam or junk folder before requesting another reset link.

# Apply — Applicant Guide

This guide covers everything an applicant does on Apply: account creation, workspace navigation, submitting an application, taking assessments, and tracking status.

*New here? Read the overview, login, and password reset first.*

## 4. Applicant View

The Applicant View provides candidates with a personalised experience to register, complete their application, take assessments, and track submission progress.

### 4.1 Account Creation

New applicants begin with an **email-first signup**. The system collects an email address, validates it, then proceeds to password and profile setup. Account creation is applicant-side only — staff accounts are provisioned by the program team.

The screenshot shows a registration page for '10 academy'. On the left is a large grid of light blue squares with the '10 academy' logo in the center. On the right is a registration form. The form has a header 'Welcome !' and a sub-header 'We are thrilled you are here!'. It contains five input fields: 'Enter your first name', 'Enter your last name', 'Enter your email address' (with an envelope icon), 'Enter your password' (with a strength indicator), and 'Confirm your password' (with a strength indicator). Below these is an orange 'Register' button. Underneath the button is an 'Or' separator and a 'Continue with Google' button. At the bottom, there is a link 'Already have an account? Log in'.

#### User flow:

1. Land on the registration page from the public application link
2. Enter your email address in the provided field
3. Click **Done** to submit
4. The system validates the email format and checks whether the email already exists
5. If the email is valid and unused, you will proceed to password and profile setup
6. If the email is already registered, you will be redirected to the login page

**Tip** — You can change the interface language at any time using the language selector in the top-right corner of the page.

## 4.2 Applicant Workspace

After logging in, applicants land on their **Workspace** — a personalised home that shows the programs they have applied to (or can apply to) and the actions required of them.

From the workspace you can:

- See available programs and cohorts
- Open an application form
- Resume a draft submission
- Continue to the dashboard for any program you've already entered

## 4.3 Dashboard

Once you've started or submitted an application, the **Dashboard** becomes your central view of what's outstanding and what's already done.

### 4.3.1 Empty Dashboard (no tasks yet)

When you first land on the dashboard before any tasks have been issued, the view is empty.

## 4.3.2 Dashboard with Tasks

Once tasks (applications, assessments, or surveys) have been assigned to you, they appear here with their status and deadlines.

## 4.3.3 Tasks View

Click into the tasks list for a focused view of everything that needs your attention.

The tasks view groups your work by:

- **Pending** — tasks you haven't started or completed
- **In Progress** — tasks you've started but not yet submitted
- **Completed** — tasks you've finished

## 4.4 Submitting an Application

Once registered, applicants are guided to the available application form for the cohort they applied to.

**SECTION 1**

Section 1 covers your history with 10 Academy, commitment to full-time training, and financial preferences, taking 2 minutes to complete.

\* What is your English level? We are only able to offer training in English (for now) and require that all trainees have sufficient English ability to be professionally competent. We tie our standard to CELF.

Please tick the checkbox if you have learned your studies fully in English for the following levels:

☐ Elementary School

☐ Middle School

☐ High School

☐ University

\* After completing this training, what are your aspirations? Please select one:

☐ Become an entrepreneur

☐ Continue studying

☐ Start working

\* Do you have the mindset to stick with something for at least 90 days? Are you committed to taking cold showers every morning for 90 days? Can you also commit to 8 to 10 hours per day, 5 days a week, for 90 days if you're admitted into our program? No side jobs, no conflicting obligations?

☐ Yes

**Submission flow:**

1. Log in to the platform
2. Open the application form for the cohort
3. Complete all required questions. You can save and return later — partial submissions appear as drafts on the staff side
4. Upload any required documents (CV, transcripts, portfolio links)
5. Review your responses on the final page
6. Click **Submit** to send your application

**Tip** — If you need to step away, your responses will be saved as a draft. You can resume from where you left off the next time you log in, as long as the application window is still open.

## 4.5 Taking an Assessment

Some programs require applicants to complete one or more **assessments** after submitting their application — or as a **pre-assessment** that must be passed before review. Assessments may be timed and have a fixed availability window.

### 4.5.1 Assessment Instructions

Before the timer starts, you'll see an instruction screen explaining the assessment rules, time limit, and any allowed reference material.

#### Before you begin:

- Use a stable internet connection on a desktop or laptop
- Close unnecessary tabs and applications to avoid distractions
- Have any allowed reference material ready before starting
- Read the instructions carefully — once started, the timer cannot be paused

### 4.5.2 Assessment Flow

1. Log in to the platform within the assessment window
2. Open the assessment from your dashboard
3. Read the instructions and confirm you are ready to begin
4. Answer each question. The timer is visible at the top of the screen
5. Submit your responses before the timer ends
6. Wait for the confirmation screen — your score will be reflected on the staff side

**Important** — Do not refresh the page or close the browser tab during an active assessment. Doing so may end your attempt or result in lost answers.

## 4.6 Tracking Your Application Status

Applicants can track the status of their application from their dashboard at any time. The status reflects where the application is in the review pipeline.

### Application Status Definitions

| Status                     | Meaning                                                                      |
|----------------------------|------------------------------------------------------------------------------|
| <b>Draft</b>               | You have started but not yet submitted your application                      |
| <b>Submitted</b>           | Your application has been submitted and is awaiting processing               |
| <b>Assessment Pending</b>  | You need to complete an assessment before review can begin                   |
| <b>Assessment Complete</b> | Your assessment has been submitted and scored                                |
| <b>Under Review</b>        | Your application is currently being evaluated by reviewers                   |
| <b>Reviewed</b>            | All reviews are complete; your application is awaiting a final decision      |
| <b>Accepted</b>            | Congratulations — you have been selected for the program                     |
| <b>Waitlisted</b>          | You are on the waitlist; you may be offered a place if one becomes available |
| <b>Rejected</b>            | Your application was not selected for this cohort                            |

**Note** — Final decisions are typically communicated by email in addition to being reflected in the platform. If you have any concerns, contact the program team using the support contact provided with your subscription.
